

meet nickolai marchingo- miller

who lives with
heart disease

Eleven-year-old Nickolai was born in Smolensk, Russia where he was diagnosed at birth with heart disease and other illnesses. In New Zealand in 2000 he underwent a follow up and in depth diagnosis at Starship Hospital and was also treated by private pediatricians. He has been hospitalised several times, the last time was in 2006 and is currently taking regular medication.

He lives in Auckland with his parents Tony and Karin and has a sister Eleanore 11 and younger twin sisters Bella and Bien 6. They have two cats, Star and Slinky.

Nickolai loves computers, Lego and anything with wheels.
