

meet patricia smith

who lives with
leukaemia

Thirteen-year-old Patricia of Auckland was diagnosed at the age of eight with leukaemia. She underwent two years of treatment before going into remission. After eighteen months she suffered a relapse and in September 2008 started treatment again which she is currently still undergoing. While the treatment is very difficult for her Patricia has a positive outlook and enjoys everything she undertakes.

She lives with her parents Ope and Edwina, brothers Andre 23, Anthony 8 sisters Violet 9 and Tatiana 6 and the family dog Pipi.

Patricia's include rap, hip hop art and music.
