THIRD RACE OF THE SEASON FOR CURE KIDS RACE TEAM AND PARTNERSHIP SPONSORS

Round three of the Rayglass 2009 Superboat Series to be held on Saturday 28 February off the beautiful shores of Maraetai was postponed to Sunday 1 March due to bad weather and safety concerns. However Sunday was amazing with flat water, extremely high tide and blue skies.

Steering problems forced us to concede the closely fought first place battle of the first two laps and we came home in second place with the crew more determined than ever to bring us home the first placing in the next race at Napier - conditions suiting our boat and bringing out her strengths.

Developments within the superboat class saw a new entry to the season at this race, the boat called A1 Homes which is great for the public to see more of these huge boats racing, however the crowd still firmly behind us, and the introduction this season of stick-on Cure Kids tattoos was a huge hit with the public.

The race also received good coverage from TV1 with a cameraman up in one of the helicopters for the race, it was aired that evening on the 6.00pm news.

I would like to take this opportunity to introduce you to the drivers of our boat Tony Coleman (left) and Chris Henley (right), these are the guys for who caution does not exist. Chris is new to the team this year, has spent time in America racing the larger and faster boats for the professional teams up there and coming away as 2006 USA Champion prior to coming home to NZ. All of our sponsors, crew and ever extending fan base are right behind them every race.

We look forward to Napier boys and the number one placing.
